Consultation on reserving content genre LCNs for HD only services – As a channel I produce all my content in HD, and distribute it in this format via on demand services, and would welcome the opportunity to deliver an HD service on DTT. We however only deliver in SD for DTT as our multiplex facility (Comux) does not have the ability to deliver in HD. I have concerns that your proposal would become the first step towards removal of SD channels from this section of the EPG, in the future, and would want assurances that Ch. 8 remains the platform for local TV
