

Bill Smith
Latest TV

I am CEO of Latest TV Brighton, part of LTVN network.

We believe the second option where all local TV stations are on Ch8 and can therefore be marketed together is totally the right way to go.

We further do not think we should be forced to change our channel number through no fault of our own and if that were to happen we believe we would need to be fairly compensated for essentially having to market ourselves from scratch again.

Thank you for allowing our views to be heard
