

Issued: 03 January 2019

Last update: 17 January 2019

- Addition of Tedburn St Mary event on 19 June 2019.
- Redruth 01 May 2019 area served spelling correction.

Trade and Industry Information

700MHz Clearance Events

Westcountry Region

Following a decision by Ofcom, spectrum in the 700MHz UHF band currently used for digital terrestrial television (DTT) is being reallocated for the development of future mobile services. Some DTT multiplexes will be moving to new broadcast frequencies as a result of this change.

Engineering work for the 700MHz Clearance Programme will take place at transmitters across the UK between 2017 - 2020. Freeview viewers (and those with other services that use Freeview channels, such as YouView) will need to retune their TV equipment when changes take place in their area. This document lists the currently announced clearance events for the Westcountry region and will be updated as new information is released. The latest version will always be available to download at www.digitaluk.co.uk/clearance. Details of the changes to transmitters will also be reflected on our coverage checker at digitaluk.co.uk/coveragechecker.

Note: Where multiplexes are moving we have included the current and future aerial group required to receive Freeview services. Digital UK recommends installers fitting new aerials use a wideband model where possible to accommodate future changes to broadcast frequencies.

Q1 2019

27 March 2019

Beacon Hill – main and some relays

Caradon Hill – Salcombe relay only

Stockland Hill – some relays only

Q2 2019

10 April 2019

Caradon Hill – some relays only

Plympton – main station only

1 May 2019

Redruth – some relays only

19 June 2019

Caradon Hill – main station and some relays

Huntshaw Cross – main station and some relays

Redruth – Penryn and St Austell relays only
