

July 2019

Trade and Industry Information

700MHz Clearance Events

Meridian Region

Following a decision by Ofcom, spectrum in the 700MHz UHF band currently used for digital terrestrial television (DTT) is being reallocated for the development of future mobile services. Some DTT multiplexes will be moving to new broadcast frequencies as a result of this change.

Engineering work for the 700MHz Clearance Programme will take place at transmitters across the UK between 2017 - 2020. Freeview viewers (and those with other services that use Freeview channels, such as YouView) will need to retune their TV equipment when changes take place in their area. This document lists the currently announced clearance events for the Meridian region and will be updated as new information is released. The latest version will always be available to download at www.digitaluk.co.uk/clearance. Details of the changes to transmitters will also be reflected on our coverage checker at digitaluk.co.uk/coveragechecker.

Note: Where multiplexes are moving we have included the current and future aerial group required to receive Freeview services. Digital UK recommends installers fitting new aerials use a wideband model where possible to accommodate future changes to broadcast frequencies.

Q3 2019

11 July 2019

Bluebell Hill – Gillingham MOT relay only

24 July 2019

Hannington – main station only

21 August 2019

Dover – Ashford relay only

22 August 2019

Dover – main station and Margate relay only

Q4 2019

16 October 2019

Dover – main station and some relays only

Midhurst – main station and some relays only

Rowridge – Ventnor relay only

Whitehawk Hill – main station and some relays only

Previous Events

Q1 2018

14 March 2018

Whitehawk Hill – main station and main station filler

21 March 2018

Dover – main station only

Midhurst – main station and some relay stations

Rowridge – main station only

Q2 2018

18 April 2018

Hannington – main station and some relay stations

Salisbury – main station only

2 May 2018

Salisbury – main station only

Rowridge – main station and some relay stations

Q3 2018

19 July 2018

Bluebell Hill – main station and some relay stations

Hastings – Hastings Old Town relay only

Heathfield – main station and some relay stations

Tunbridge Wells – main station and some relay stations

Whitehawk Hill – Patcham relay only

Q2 2019

1 May 2019

Hannington – main station only

11 July 2019

The BLUEBELL HILL transmitter group, serving north and mid Kent

Gillingham MOT
