Trade and Industry Information

700MHz Clearance Events

London Region

Following a decision by Ofcom, spectrum in the 700MHz UHF band currently used for digital terrestrial television (DTT) is being reallocated for the development of future mobile services. Some DTT multiplexes will be moving to new broadcast frequencies as a result of this change.

Engineering work for the 700MHz Clearance Programme will take place at transmitters across the UK between 2017 - 2020. Freeview viewers (and those with other services that use Freeview channels, such as YouView) will need to retune their TV equipment when changes take place in their area. This document lists the currently announced clearance events for the London region and will be updated as new information is released. The latest version will always be available to download at www.digitaluk.co.uk/clearance. Details of the changes to transmitters will also be reflected on our coverage checker at digitaluk.co.uk/coveragechecker.

Note: Where multiplexes are moving we have included the current and future aerial group required to receive Freeview services. Digital UK recommends installers fitting new aerials use a wideband model where possible to accommodate future changes to broadcast frequencies.

Q3 2019

24 July 2019

Crystal Palace – Alexandra Palace and Hertford relays only

Previous Events

Q1 2018

14 March 2018

Guildford – main station only

21 March 2018

Crystal Palace – main station and some relay stations

Hemel Hempstead – main station only

Reigate – main station only

Q2 2018

18 April 2018

Crystal Palace – some relay stations only

Guildford – main station only

Hemel Hempstead – main station only

Q3 2018

19 July 2018

Crystal Palace – Forest Row relay only

30 August 2018

Crystal Palace – Hammersmith relay only

Q4 2018

21 November 2018

Crystal Palace – Cane Hill Chapel relay only

04 December 2018

Crystal Palace – Biggin Hill Link relay only

Q1 2019

27 March 2019

Hemel Hempstead – main station only (Local Mux service launch only)
