Installer Update

Special Edition – 14 June 2010

This is an important update from Digital UK, the independent, not-for-profit organisation leading the process of digital TV switchover in the UK.

IMPORTANT:

Work at the Emley Moor Main Transmitter is now forecast to continue to the end of August 2010*

Arqiva has revised the completion time for work at Emley Moor

Digital UK has been informed by Arqiva that engineering work in preparation for digital switchover at the Emley Moor transmitter is now expected to continue until the end of August 2010*.

Viewers with marginal reception may have difficulties receiving some channels

Viewers on the margins of Emley Moor's service area, those with poor aerial installations, or other problems with their receiving equipment may have difficulty receiving some or all DTT (Freeview) services during the work period.

*** The work is subject to the weather and other factors.**

Timescales for the installation of the new main antenna system are subject to many factors, including the weather, but all efforts are being made to complete the work as quickly as possible.

Digital UK apologises for any inconvenience caused
